Governor Gray Davis
State Capitol
Sacramento, CA 95814

Dear Governor Davis:

I am writing to request that you support the CALFED Bay/Delta program.

As a second generation California native and future parent, it is of vital importance to me that we protect California's rivers, bays, and drinking water for generations to come.

I believe that the CALFED program can accomplish this if you ensure that:

- We invest in water efficiency instead of using taxpayers' money to research and build new dams and reservoirs, which flood valuable habitat and remove needed water from our rivers
- We restore our rivers, bays and fisheries by providing adequate fresh water and caring for the land around our rivers
- We enforce pollution limits and thereby improve water quality for people and wildlife

Thank you for your attention to this very important request.

Kind regards,

Robin Gilson
